

TO:
Meaghan Scanlon
Minister of Environment

Stirling Hinchcliffe
Minster for Tourism

Anna Palaszczuk
Premier of Qld.

Dear Ministers

I deplore your Government's plans to allow private leases and development of private commercial accommodation in Cooloola National Park.

The sites proposed for development demonstrate disregard for Cooloola's ecological and aesthetic values, and a disregard for the public interest generally.

The wild areas within our National Parks are highly valued by Queenslanders. They belong to all of us.

These unique and irreplaceable eco-systems must be securely protected.

I strongly request that you:

Stop this private development program now, and,

Consult sincerely with Queenslanders upon our National Parks:

- to determine their real needs

- to protect nature and to provide equitably for current and future generations

HANDS OFF COOLOOLA!
Protect Our Parks & keep Cooloola cool
