

2017 ALP

## ELECTION PLATFORM

- 5.40 Labor will ensure that National Parks and the protected area estate is managed in accordance with the Cardinal Principle.
- 5.41 Labor supports the use of National Parks for appropriate and ecologically sensitive activities. To avoid adverse impacts, *Labor will ensure that intensive development required to support the appropriate and ecologically sensitive use of National Parks is located outside of the boundary of protected areas.*
- 5.42 Labor will ensure that development and other types of activities within National Parks and the protected area estate are managed in accordance with the Cardinal Principle.
- 5.43 Labor will continue to ensure the Queensland Parks and Wildlife Service is adequately resourced to enable National Parks and the protected area estate to be properly managed.
- 5.44 Labor will ensure that comprehensive scientific management plans are established for all National Parks and the protected area estate (including...

The Cardinal Principle of National Parks is to protect and conserve nature as *THE* highest priority

If this cardinal objective is made to compete with the objective of commercial development *INSIDE* of Parks, then it is no longer the Cardinal Principle.

*AND*, locating intensive development outside of National Parks, should mean what it says!

**HONOUR THE PROMISE**

**STOP  
COMMERCIAL DEVELOPMENT  
INSIDE NATIONAL PARKS!**
